

# Youth Homelessness in the North East 2018 LAs

---

## Page 1: Introduction

Dear All

Thank you for taking part in YHNE's regional survey of youth homelessness 2018. This is the seventh annual survey of its kind. The research has proven highly useful in developing our understanding of the nature of youth homelessness and experiences of young people in our region over time, as well as informing policy responses. Each year, the survey explores:

- The nature, extent and primary causes of youth homelessness in the North East;
- The impact of the wider social, economic and political context on the experiences of young people; and
- Changes to the nature and levels of service provision for homeless young people in our region.

The survey should take approx. 15 minutes to complete. It refers to young single people aged 16-24. Where questions relate to young people aged 16-17 and care leavers, it may be useful to liaise with Children's Services and combine your figures. In order to provide clarity of data, please ensure that only one person from your organisation completes the survey.

Most of the questions in the survey ask for actual numbers of young people. Please estimate these figures if you cannot provide accurate numbers.

All of the individual responses provided will be kept confidential and anonymous.

Please remember to click the 'Finish' button once you have submitted your responses.

If you have any questions about the survey, please contact Sharon Brown, YHNE Director, [Sharon@yhne.org.uk](mailto:Sharon@yhne.org.uk)
